The case for Criterion Global Clean Energy Fund

Canada's First Global Clean Energy Fund

Why Invest in the Fund?

- Globally Diversified: Take advantage of the growth the world has to offer
- Complement your existing traditional energy exposure
- Gain exposure to an untapped theme: MSCI World Index is only 4% clean energy

Invest with a Proven Market Leader: Pictet Asset Management

- Proven experience: over 200 years
- Approximately \$120 billion assets under management
- Successful approach to “thematic” mandates through a GARP investment philosophy
- Currently managing a global clean energy fund in Europe

Energy Transition History

1859
First oil well dug

1898
Swedish scientist warns carbon dioxide from coal and oil burning could warm the planet.

1908
Henry Ford produces the Model T car

1950
Oil replaces coal as Canada's largest single source of energy

1973
Arab oil embargo sets off first global energy crisis. A shift to develop renewable fuels is born.

1990
Number of cars in the world approaches 500 million. Human population is 5.36 billion

1997
The Kyoto Protocol outlines emission cuts to be met by 2010.

2002
Japan installs 25,000 solar rooftops. Similar orders create economies of scale, lowering costs.

2005
Hottest year in history

2007
Clean energy market projected to be \$226 billion by 2016.*
